Your Event Photographed...

Based on your needs we provide the following services and more!

Live Action Coverage
Professional photography and photojournalistic coverage of your event can help with news releases, future marketing, annual report imagery, and great memories.

Group Portraits
Get professionally posed and lit team and group portraits.

Formal Portraits of guests and VIP's
Give your guests something they will frame and display in their home or office - with your message and logo of course. We've heard many times that people have the photo we took from previous years on their desk or refrigerator.

Entertain guests with photo booth fun
An open-air photobooth is lots of fun. - with or without green screen. The best DJ in Bozeman announced at a party that she has never before had a photobooth - our photobooth - be more popular than her music and the dance floor.

Branded, Marketed, Printed...

As the photo is taken your message is placed on the image.

Branding & Messaging
Whether it's a big public event or a private gathering, intimate, formal, casual, or boisterous, your logo and message can be placed on the image with an overlay that we customize for your business and event theme.

Sponsor's Logos
Sponsor logos can be incorporated into the photo overlay. It's another benefit that can be added to levels of sponsorship.

Tickets and Coupons
Specialized photo paper allows us to make a personalized perforated tear off section at the bottom of your print. Just imagine using it as an entry, drink, or raffle ticket, or even a store coupon.

I.D. Badges and Lanyards
Guests love these personalized and fun I.D. Badges. Use them as a badge of honor or require them for entry. Photographed, printed and ready to wear in one minute.

Posters and Signage
You need banners and posters before and during your event. We can design and produce these for you at very low cost.

Shared & Remembered!

Your guests keep the photos - with your message of course - through prints, social media uploading, phone messaging or e-mails.

Immediate Digital Sharing
Everyone wants photos on their phone. We can send the photobooth photos to an online gallery from where your guests can save and share their photos!

Prints
There is still nothing quite like a print. Add that special something to your event. It takes just 15 seconds per 4x6.

Something to Take Home
What else at your event do your guests take home? A branded photo is a great way to help people remember your event and message.

Social Media Uploads
If you have social media feeds we can upload photos during or after your event.
